## SKILLS

---

JavaScript, Express, React, SQL, HTML, CSS, Git, Node, Java, Ruby

## PROJECTS

---

### [My Spotify](#) (Express, React, CSS, JavaScript)

Recreation of the spotify webpage.

- Utilized the spotify API to link the users own spotify account to the site.
- Read, and showed the users top artists, recent tracks, and all saved albums, playlists, artists, and tracks.
- Displayed the users current playing song in the spotify client.

### [School Database](#) (Express, HTML, CSS, JavaScript, SQL)

School-wide database management platform.

- Used SQL, and Express to create and seed the school database.
- Implemented user authentication to the frontend based on the ID storing the information into the database.
- Created 3 user pathways - administrator, teacher, student - with different displays and functionalities .
- Built a responsive design with CSS media queries

### [Calculator](#) (React, CSS)

Simple calculator that allows the user to perform 5 basic mathematical functions.

- Built logic to perform the order of operations entered
- Simplified the development process by using React to break the app into components.
- Added functionality to run the app using just a keyboard.

### [Hangman](#) (Node)

Remaking of the Hangman game that allows the user to play against a computer or another player.

- At the start of the game, user can set up the following: number of players, names, choice of being the guesser or referee, difficulty level, and category
- Set up a function to randomly choose, and display 1 of 50+ words based on the category choice of the user.
- Tracked wins and losses of the players and displayed them after the round is finished with an option to play again.

## EXPERIENCE

---

### Pursuit

*Fullstack Web Development Study Lead*

- Lead bi-weekly review sessions for a group of 3-4 fellows.
- Develop lesson plans and pre-work based on the needs of the fellows.

**Long Island City, NY**  
*November 2019 - Present*

### Duane Reade NY

*Stockperson*

- Stock 20-30 overnight delivery crates on display for the customer.
- Strategically arrange 25 products inside of our storage room for quick access increasing productivity of the overnight crew up to an hour per shift.

**New York City,**  
*August 2019 - Present*

## EDUCATION

---

### Pursuit

*Fullstack Web Development Fellow*

Enrolled in an intensive 10-month, Google-funded software engineering fellowship with a 9% acceptance rate.

**Long Island City, NY**  
*September 2019 - Present*

**Rochester Institute of Technology**

**Rochester, NY**
